

FREQUENTLY ASKED QUESTIONS (FAQs)

QUESTION

1. Will the Berkshire Place on-ramp to Westbound I-210 freeway, close?
2. How long will the single lane on Foothill Blvd. be in place?
3. How long will the left-turn from westbound Foothill Blvd. to I-210 be closed for?
4. Are there any other closures or lane blockages during construction time?
5. What is the completion date for this project?
6. What is the height of the soundwalls a part of this project?
7. Will vegetation be planted on both sides of the new soundwalls?
8. Will the alignment of the Trail Council Link be changed?

ANSWER

1. There are no closures for the Berkshire Place on-ramp to Westbound I-210 freeway. Should any closures be necessary, the public will be informed.
2. The single lane closure on Foothill Blvd. will remain until completion of the bridge work, currently estimated to be November 30, 2022.
3. The left-turn from westbound Foothill Blvd. to I-210 is expected to be closed until the construction completion of the soundwall on the overpass, estimated to be November 30, 2022.
4. The lane blockage/closure of the westbound I-210 on-ramp may occur periodically when night work is necessary.
5. Project completion date is expected to be February 2023.
6. The three soundwall that are a part of this project vary from 10 feet to 16 feet.
7. Trees will only be planted on the freeway side of the wall. Caltrans requires the area between the soundwall and the properties' fence/block walls, where applicable, for maintenance.
8. The Trail Council Link will continue to extend from Verdugo Boulevard to Foothill Boulevard. However, it will be slightly shifted to align between the new soundwall and the existing fence along the State's right of way.
