

COMPLETED CONSTRUCTION PROJECT

PROJECT OVERVIEW

Project Title: Soundwall Construction on I-210 Phase III

Project Description: The City of La Cañada Flintridge, in partnership with Caltrans and Metro, completed the planned program construction of the Soundwall Construction on I-210 Freeway, Phase III Project, which consists of three soundwall segments along Interstate 210:

- **Soundwall along eastbound I-210** Between Alta Canyada Road and St. Francis Place (S311A & B; south side of I-210).
- **Soundwall along eastbound I-210** Between Vineta Avenue and the eastbound I-210 Freeway (S335; south side of I-210).
- **Soundwall along westbound I-210** Between the intersection of Baptiste Way and Vineta Avenue and the westbound I-210 Freeway off-ramp at Crown Avenue (S336; north side of I-210).

Project Schedule: Construction began in February 2022 and was completed in April 2023.

Project Benefits: By completing these three soundwall segments, noise levels on I-210 through La Cañada Flintridge have been reduced, for the benefit of the community.

Project Funding: The Project was funded with \$7 million of Metro funds, \$5 million of SB1-Local Partnership Program (LPP-C) funds, and \$430,000 of Measure R Local Return for a total amount of \$12,430,000 to finance the design, construction, and construction management costs of the project.
